Introducing NEW Bistro Seating!

Bistro Stool & Chair, Straight Back Design

To complement our existing line of Bistro tables, we've added a line of Bistro chairs and stools. Solid, attractive, and functional best describe these beauties. They're perfect for your cafeteria, break room, or any hospitality-type setting. Simply unpack the fully-assembled chairs, attach the seat, and enjoy years of quality seating.

Bistro Chairs and Stools feature a cushioned seat and backrest with black upholstery. Sold 2/box, the solid wood frames are available in your choice of black or chestnut brown finish. Both the stools and the chairs are shipped with a fully assembled wood frame (chairs are fully assembled and for the stools, you simply need to attach the seat cushion).

All are currently in stock and available on both Mayline's 72-hour Kwik-SHIP program and  **FAST Freight** program.

Bistro Chair & Stool, Arched Back Design
