

## Talon Moves Into Hyatt Place

Hyatt Place hotels are adding Talon tables to all of their conferencing areas.

Mayline's Talon tables are making people feel at home in the hospitality market. Most recently, they have found a new place...Hyatt Place™ that is.

Hyatt™ is in the process of converting and updating all of their AmeriSuites® hotels to a higher level of casual hospitality. The Hyatt Place concept features contemporary decor and stylish furnishings, along with state-of-the-art work centers and conference facilities.

When Hyatt conducted their search for conference tables, they worked with Corporate Express and looked for a solution that provided a design that matched their contemporary decor, offered plenty of features and benefits,

was easily stored, mobile, and reconfigurable. Lowest price was not a key factor, but certainly appreciated. After evaluating four competitors, Hyatt chose Mayline's family of Talon™ tables to fulfill their needs. Mayline has currently shipped Talon to over 91 Hyatt Place locations within the United States. More than 1,700 tables are currently in use with more than 2,000 additional tables forecasted during the next nine months. While Talon has taken care of Hyatt Place, we are certain that there are several other hotel chains just waiting for Mayline to help satisfy their requirements as well.

We are pleased to advise that when your future travels take you to Hyatt Place, Talon will be there waiting for you!
