

Plan Files

Mayline's plan file systems are perfect for large format documents, drawings, artwork, antiques and yes, even blueprint, vellums and tracings. They provide the ultimate in protection for your storage needs. Mayline offers six unique all-steel or all wood flat files with most available in either 5 drawer or 10 drawer configurations. All files stack up to three units high using 4" or 6" flush base or legs, and two high using a 20" stationary base.

C-Files

Whether the need is for active or archival storage of drawings, C-Files are perfect for the requirement and structurally provide the greatest protection of any plan file on the market.

- Self-contained design with integral cap.
- Drawers have front metal plan depressor with rear hood.
- C-Files can support up to three different drawing sizes.
- Coated fabric dust covers for maximum document protection. (Optional)

Museum

Mayline's Museum files offer all the great benefits of the C-Files, with paint finish, drawer rails and case construction, which are specially designed and manufactured with media safety in mind.

- A fully enclosed drawer bottom prevents the entry of dust or moisture, which could harm precious documents.
- Drawer glides are Delrin™ rollers with fully encased ball bearings to avoid metal sloughing.
- All museum files are finished in non-outgassing paint.

Hamilton Unit System®

Hamilton Unit System Plan Files are a high-capacity plan filing system built for safe, quick storage and retrieval. Sturdy steel construction provides the framework for smooth and dependable operation.

- **The Hamilton Unit System can support up to four different drawing sizes, including “E” size drawings.**
- **Reinforced corner posts and interlocking design for ease of stacking.**
- **Patented tracing lifter on 10-drawer units allow for easy retrieval and replacement of documents.**

Interlocking Plan Files

Mayline's Interlocking Plan Files and Hamilton Regular Series Files are recommended for storage of tracing, prints, charts, maps or semi-active and archival reference drawings.

- **Patented tracing lifter on 10-drawer units allow for easy retrieval and replacement of documents.**
- **Interlocking files can support up to three drawing sizes.**
- **Reinforced corner posts and interlocking design for ease of stacking.**

Wood and Melamine Plan Files

Mayline's Wood Plan Files combine the natural beauty and finish of wood with the strength and durability of hardwood construction.

The Melamine Files have an easy-to-clean, white melamine finish.

- **Attractive oak veneer and hardwood constructions. (Wood Only)**
- **Antique brass drawer pulls. (Wood Only)**
- **Both files support three drawing sizes.**
- **Drawer height of 1 7/8".**
- **Bookcase. (Optional)**
