Popular e5™ Modular Line from Mayline® Goes Bold with Expanded Color Palette and Additional Worktables for Greater Creative Expression

SHEBOYGAN, WI—September 22, 2015—e5™, the go-anywhere, do-anything furniture solution is now awash in new accent color options and components.

“Mayline® has unleashed creativity by adding a collection of more than 900+ colorful, high-performance laminate and texture options to style any e5™ horizontal surface,” explained Dianna Fronk, Director of Product Development. “And for another impressive statement in style, buyers can choose frosted glass hinged doors on our e5™ storage components and now also available in four vibrant and contemporary acrylic colors.”

Additionally, Mayline® introduced a 120-degree workstation and standing-height table alongside its benching applications - adding more choice to the e5™ lineup and more diversity in the workspace.

“Now there are more ways than ever to customize and personalize workspaces thanks to our new e5™ components and an incredible collection of color options,” said Fronk.

The e5™ desking line combines creativity with a common-sense approach to building workspaces in five easy ways – easy to install, easy to power, easy to reconfigure, easy to specify and easy to afford. It’s the perfect complement to today’s open plan aesthetic, and a practical solution for private office plans.
