</table>

1. Assemble the bolt (item C) and T-nut (item D) to the Modular wall bracket as shown. Do not tighten the nut. Leave loose for assembly.

2. Insert the bracket assembly into the top of the upright as shown.

3. Slide down to desired location.

4. Repeat for other side.

5. Tighten the screws.
6. Center the cabinet or shelf on the brackets.

7. Clamp the uprights firmly in place.

8. Fasten the cabinet or shelf to the bracket using #10 screw (item E).

9. Attach the bolt and t-nut to the side clip as in step 1.

10. Slide the clip down till flush with the top of the cabinet.

11. Tighten the bolt and fasten to the cabinet using the #10 screw.

12. Repeat steps 9, 10, and 11 for the other clip.

13. Repeat for all remaining cabinets and shelves.

Note: Cabinets can be moved by slightly loosening the bolts and moving to desired location.
