Mayline® Expands Its Award-Winning Keep™ Modular Wall System

SHEBOYGAN, WI—October 1, 2015—Mayline® Company, LLC has announced an expanded product offering of its award-winning Keep™ modular wall system. Now with even more configuration options, more aesthetic choices, more mobility and more media savvy.

The highly functional and infinitely adjustable Keep™ wall system recently won the Best New Furniture Product Award at the North American Office Products (NAOPA) conference in June. Its flexibility, two-sided access along with multiple component options and an unlimited number of freestanding sections make Keep™ the perfect solution to divide and conquer productivity.

“Keep™ is a smart and accessible modular wall system that provides both storage and space delineation,” indicated Dianna Fronk, Director of Product Management. “The range of configurations and aesthetics with Keep™ are only limited by the imagination at this point.”

With greater fabric choices, vibrant new contemporary acrylic panel colors, 90- and 120-degree configurations, added media support and optional mobility – the Keep™ modular wall system creates an impressive statement in any space.
