Sheboygan, WI (May, 2015) – Mayline Company, LLC has partnered with [The Cooperative Purchasing Network \(TCPN\)](#) to provide their complete range of mid-market contract furniture products and installation services to 37,000+ participating TCPN members throughout the U.S. TCPN's lead government agency, Region 4 Education Service Center, uses a competitive solicitation process consistent with applicable procurement laws and regulations.

Mayline's contract award is a competitively bid 3-year (with possibility for two 1-year renewals), Furniture and Installation Contract **#R142211**. Through this contract, Mayline offers TCPN members a broad portfolio of contract furniture products that accommodate diverse workplace practices and meet their ever-changing requirements for style and functionality.

"We are very excited about this partnership with TCPN", said Rod Ganiard, VP of Sales & Marketing for Mayline. "TCPN's participants will appreciate the value of what our mid-market contract furniture products offer them without having to sacrifice design styles or quality." Mr. Ganiard can be reached at (800) 822-8037 x276 or email rganiard@mayline.com.

About The Cooperative Purchasing Network (TCPN):

TCPN is a national governmental purchasing cooperative, established in 1997 whose contracts have been competitively bid and awarded by a governmental entity serving in the lead agency role to national vendors for commonly purchased products and services, including facilities, furniture, office supplies and equipment, security systems and technology. Entities that must comply with purchasing procedures mandated by state laws and regulations, like public and private schools, colleges and universities, cities, counties, nonprofits, and all governmental entities, use TCPN contracts to increase their efficiency and economy when procuring goods and services. As a national purchasing cooperative, TCPN leverages one of the largest pools of purchasing potential and allows agencies to receive a combined buying power regardless of the entity's size.
