

File Harbor Cabinets

The File Harbor cabinet is the most unique and universal cabinet on the market, solving your storage problems once and for all.

The key to the File Harbor's appearance, security and function is the locking tambour door. When opened, the entire contents are fully exposed and easily accessed. Let us show you the cost savings that can be achieved when File Harbor cabinets are utilized in individual workstations, providing privacy between users and flexible, high density storage.

- A cabinet design that gives you multi-media storage options.
- Horizontal, receding doors keep the aisle clear for passers-by.
- Closed door provides a clean and attractive appearance.
- Lower cost per filing inch than vertical or lateral drawer files.
- Available in three standard heights and widths.
- Can be installed on Mobile Aisle and Kwik-Track.
- Roll out drawers or frames. (Optional)
- Reference shelf. (Optional)

Gain approximately six square feet each time a File Harbor Cabinet replaces an existing 42" wide lateral file.

File Harbor inset into wall and as work station dividers.

Roll out drawers and file frames. (Optional)

Reference shelf. (Optional)

File Harbor Accessories

A range of interchangeable components allows File Harbor cabinets to adapt easily to your future needs and store a variety of mixed media. Components include shelves for both letter and legal, end-tab files, binders, rails for suspended pockets, a roll out drawer for office supplies and CDs, and roll out frames for hanging files.

Lateral Files

Mayline offers NEW high-performance lateral files at an exceptional value. If filing is an essential part of the work day make it easy and economical by using these stylish lateral files.

- Affordable high-performance lateral files.
- All steel construction.
- 36" and 42" wide units available in 2, 3, 4 or 5 high.
- Top drawer of the 5 high unit is a roll out shelf.
- Side to side rails support letter, legal or A4 filing format.
- All units feature an anti-tip interlocking drawer system.
- Stylish recessed pulls and heavy duty, full extension telescoping slides are standard on all drawers.
- Single key removable lock. (Standard)
- Files can be mobilized on Kwik-Track and Mobile Aisle.
- Available in Black, Medium Tone, Desert Sage and Mist.

Steel Bookcases

NEW Mayline steel bookcases are durable and a great value. Access is quick and easy regardless of what size bookcase is chosen to meet storage needs.

- 36" wide units are available in 2, 3, 4 and 5 shelf styles
- Shelf count includes the bottom of the bookcase.
- Shelves adjust in 1" increments.
- 13" deep shelves easily accommodate 3-ring binders.
- Units assemble quickly and easily.
- Available in Black, Medium Tone, Desert Sage and Mist.
- Contact Customer Service for additional color options and upcharges.
- Heights align with CSII desking and hutches.

Flip 'N File

Maximize your filing space with rugged and affordable Flip N' Files. Units offered in a choice of open or closed door designs featuring fixed shelves with standard painted steel dividers. Open units provide instant visual access to files while closed door units offer added confidentiality and protection of materials. The retractable spring assisted doors with recessed pulls respond easily to touch for quick and full accessibility to files while not blocking your aisle ways.

- 36" wide open or closed door units available in 5, 6 and 7 tiers.
- Each unit allows for both letter and legal depth filing.
- 4 dividers provided per shelf, adjustable on 1" increments; additional dividers available for purchase.
- Recessed pulls on closed door units.
- Label holders are provided for ease of identification of files on closed door units.
- Adjustable levelers and glides assure the unit is sturdy and operates smoothly.
- A lock is a standard security feature on each closed door unit.
- Available on Kwik-Track.

Law Office application.

Forms & Storage

Nothing offers as many ways to eliminate office clutter than Kwik-File's Forms Storage Cabinet. Interchangeable all-steel components allow you to reconfigure your interior space to organize virtually any size media. Sorting shelves have a thumbcut design and beveled flanges on the front edge of each shelf for easy retrieval and labeling. Optional roll out work shelf allows you to sort and retrieve stored information quickly and efficiently.

- Organize, sort, collate, and store forms, literature, binders and more.
- Available in two heights and two widths.
- 42 standard configured models or create your own.
- Interlocking shelves adjust on 1/2" increments.
- All welded steel construction with 18-gauge steel shelves and supports.
- Locking door. (Optional)

Stackable Files

Stackable files offer a versatile option to traditional filing at an economical price and are easy to assemble. Perfect for small and medium size offices that require flexibility and growth options.

- Stackable to 8 tiers high.
- Stackable tiers sold in pairs.
- 36" (4 shelf dividers) and 48" (6 shelf dividers) widths, letter and legal depth.
- Bases (2" or 4") available with heavy duty levelers.
- Reference Shelf available.
- Available in Pebble Gray and Sand Beige.

Multiple configuration options up to 8 tiers.

Filing Carts

Kwik-File offers a line of attractive and competitively priced lockable carts that can be used to store and transport important documents. Scratch resistant, laminate tops provide a useful work surface.

Letter/Legal Carts

- Filing cart is able to store either letter or legal files.
- Three shelves, two of which are adjustable, with two adjustable dividers per shelf.
- Locking door for security.
- Locking heavy-duty casters allow carts to travel easily from room-to-room.

X-Ray Carts

- X-Ray cart supports up to 350 lbs.
- The X-Ray cart is separated by a partition in the middle to provide more structure for weight of X-Ray media.
- Two shelves with two dividers per shelf.
- Locking door for security.
- Locking heavy-duty casters for easy mobility.

Laptop Carts

Our locking laptop cart will allow you to secure and recharge up to 24 laptops at once. This attractive and intelligently designed cart is a perfect solution for the education market.

- Two UL-listed multi-socket power strips located in the front of the unit, with holes at the bottom of the cart for cable management.
- Can store up to 24 laptops at one time.
- Locking door provides security.
- Perforated steel doors and back panel provide proper ventilation.
- Heavy-duty casters (two locking) safely transport computers throughout facility.
- Scratch resistant, laminate tops provide a useful work surface.
