Items with HB are in hardware box **TAMHB**.

- 1** Remove cap from post.
- 2** Slide monitor arm (A) into a groove at the desired position.
- 3** Tighten ratcheting lever.
- 4** Repeat Steps 2 & 3 with additional monitor arms, if necessary.
- 5** Re-install cap on top of post.

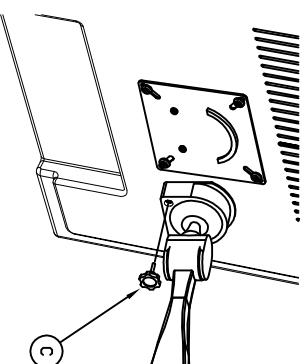

**3**

- 6** Attach plate (B) to rear of monitor using the screws provided with the monitor or screw and washer (F & G) in hardware bag. Keep the cut out orientated to the top of the monitor.

- 7** Place the cutout on plate (B) over lip on ball joint and secure using two finger screws (C) as shown.

**4**

**8** Install cable management clips (D & E ) as desired.
