1. Attach the pedestal leg and one of the brackets by aligning with the pre-drilled holes and fastening with the supplied screws (A).

2. The bracket position shown is for a left hand return. For a right hand return fasten bracket on the other side.

3. Place the return in the desired location.

4. Fasten using the supplied washers and particle board screws (B and C).
5. Position the second bracket between the two tops.
6. Fasten with the remaining washers and particle board screws (B and C).

NOTE:
Level assembly by adjusting levelers.
