1. Position the legs over the pre-drilled holes in the top with the gussets facing parallel to the width of the table.

2. Fasten the legs with the provided wood screws.

NOTE:
SCREW ON END IS NOT REQUIRED. IF YOU CHOOSE TO FASTEN THIS SCREW, BE CAREFUL TO NOT SCRATCH THE LEG. A HAND SCREWDRIVER OR A DRIVER WITH A LONG EXTENSION IS RECOMMENDED.
NOTE:
Level the table by adjusting the levelers.

For short legs resting on 23" high cabinets, tape here

3. After short legs are positioned on the cabinet, fix in place with provided double sided tape between cabinet and bottom of the leg.
