Improper assembly or installation. Mayline and/or its distributor. Instructions are provided to avoid problems that may occur from these. Review ALL instructions before beginning assembly. IMPORTANT.
Proper Care of Wood Surfaces

With proper care of the wood surfaces and finishes, your office furniture will provide elegance and convenience for years. Please reference these easy-to-follow instructions whenever you have a question.

• Clean all surfaces frequently with a soft cloth dampened with warm water, moving the cloth with the grain. (Do not use furniture polish, waxes, or other oily or plastic-based cleaners.)

• Immediately remove any liquids that come in contact with wood surfaces by blotting with a clean cloth.

• Lift objects to move them, never pull them across the finished surface.

• Avoid exposure of finished wood surfaces to extremes of heat and cold, or to wide humidity variances.

• Avoid exposure of furniture to strong sunlight. The wood underneath the finish may change color from prolonged exposure to sunlight.

• Avoid exposure of furniture to harsh solvents (nail polish remover, acetone, etc.) as this will cause finish deterioration.

• Avoid exposure of furniture to strong chemicals, as these may change color from prolonged exposure to chemicals.

• Avoid exposure of furniture to strong abrasives, as these may scratch the finish.

If you have any additional questions, please contact our customer service department at 1-800-822-8037.
