### PARTS LIST

**REALS006**

- **Cam Fastener**
  - Qty: 2
  - HB

**REALS003**

- **Cam Plug**
  - Qty: 2
  - HB

**REALS002**

- **4x16mm**
  - Qty: 4
  - HB

**REALS001**

- **Cam Post**
  - Qty: 2
  - HB

**REALS016**

- **Mounting Plate**
  - Qty: 2
  - HB

**REALS019**

- **Screw-On 32mm**
  - Qty: 2
  - HB

**REALS039**

- **Center Base**
  - Qty: 1
  - HB

**REALS066**

- **Cam Plug**
  - Qty: 2
  - HB

**REALS004**

- **Top**
  - Qty: 2
  - HB

**REALS009**

- **Modesty Panel**
  - Qty: 2
  - HB

**REALS005**

- **Top**
  - Qty: 2
  - HB

**REALS010**

- **Mounting Plate**
  - Qty: 2
  - HB

**NB: Items 25 & 31 are in the hardware box.**
For tables with Adder(s) go to instruction sheet M172A, for no Adder proceed to step 6.
Proper Care of Wood Surfaces

With proper care of the wood surfaces and finishes, your office furniture will provide elegance and convenience for years. Please reference these easy-to-follow guidelines whenever you have a question.

• Clean all surfaces frequently with a soft cloth dampened with warm water, moving the cloth with the grain. (Do not use abrasive cleansers or powders to clean or buff finish.)

• Lift objects to move them; never pull them across the finished surface. This simple habit will prevent scratches and gouges in the wood finish.

• Avoid exposure of furniture to strong sunlight. The wood underneath the finish may change color from prolonged exposure to sunlight.

• Avoid exposure of finish to products containing alcohol or other solvents, as they will damage the finish.

• Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances. Sudden changes in temperature may cause delamination of the finish, leading to possible water damage.

• Keep an additional tray or a protective desk pad between the object and the finish to protect the finish from possible scratching.

• Do not leave plastic, vinyl or rubber items on finished wood surfaces. Sustained contact may cause deterioration of the catalyzed lacquer finish due to possible chemical reaction between the plastic, vinyl or rubber and the catalyzed lacquer finish.

• For an additional safeguard, use a protective desk pad. This single item could ensure a lasting finish by protecting your furniture from possible damage caused by pens and sharp objects.

• Avoid exposure of finish to harsh solvents (nail polish remover, acetates, etc.), as it will cause finish deterioration.

• If using a protective glass top, place spacer pads between the glass top and the finish to allow the wood to breathe.

• Do not use furniture polish, solvents or any wax or oil base products. (Do not use paper towel.)

• Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances.

• Change cabinets by using a protective finish by providing your furniture from possible damage caused by pens and sharp objects.

• Change cabinets by using a protective finish by providing your furniture from possible damage caused by pens and sharp objects.

If you have any additional questions please contact our customer service department at 1-800-822-8037.
