customer service department at 1-800-822-6037.

Proper Care of Wood Surfaces

- Avoid contact of furniture to heat sources (e.g., polish remover, solvents, waxes).
- Avoid exposure of finishes to strong sunlight. The wood absorbs the UV rays that cause yellowing and fading.
- Avoid exposure to extreme temperature changes.
- If using a protective glass top, place spacer pads under the glass to allow the wood to breathe.
- If dusting, use a vacuum attachment.
- Avoid walking on wood floors with bare feet. Socks are a must.

Diurnal Variations

• Do not leave objects, such as glass or metal, on finished wood surfaces.
• Do not place objects, such as glass or metal, on finished wood surfaces.
• Do not leave water spots on wood surfaces, such as glass or metal.

Humidity Variations

• Avoid direct exposure of finishing to extremes of heat and cold, or to direct sunlight.
• Lift objects to move them, never pull them across the finished surface.
• Avoid exposure to extreme temperature changes.
• Avoid exposure to extreme humidity changes.

Damage Caused by Pens and Sharp Objects

• Use a protective pad or a protective dose to protect your furniture.
• Use a protective pad or a protective dose to protect your furniture.
• Use a protective pad or a protective dose to protect your furniture.

Cleaning the Surface

• Clean all surfaces frequently with a soft cloth dampened with warm water, a mild cleaner, and a polishing agent.
